

Halloween Safety Tips

The time of goblins and strange creatures is fast approaching. Children of all ages will be outside, wearing masks that make it harder for them to see. Children will be excited and not as alert to traffic. It is up to all of us motorists and pedestrians to be more alert for them. Below are some other safety tips to remember and keep your children safe during Halloween:

1. Trick or Treat in your own neighborhoods so you are familiar with the people giving your children treats.
2. Make sure older kids go out with friends if not going with you.
3. Set a time limit for children to Trick or Treat.
4. Remind kids not to enter houses or cars without you.
5. Dress your children in white or reflective clothing.
6. Carry a flash light or glow sticks to make them more visible.
7. Accompany all younger children.
8. Check all the candy your children receive.
9. Report all suspicious people, vehicles or activities to local Law Enforcement.
