Subject: senior scam

An older gentleman called the Dept of Health, stated that someone from our department had called him offering free/reduced meds and a health card for these. They wanted his ss# and date of birth, he did not give that info, could not get info regarding a contact he could call back, not did any number come up on his caller i.d.

We are NOT calling people and offering health cards or free or reduced meds. (We do have a free/reduced med program for our clients and are working with you all on a prescription drug program for all Brevardians, but are not soliciting the community). If there is any way you can get the word out about this senior scam, I would appreciate it.
